

A new ESME course for clinicians on the run!

Introducing a new ESME course for clinicians on the run. Would you like to take part in our ESME course but never seem to be able to find the time? Our new ESME online-flex course could be for you. Upon launch, you'll get access to the full course immediately and can plan how to complete it around your own schedule. You can choose whether to progress through the modules in order or jump straight in to an area of particular interest. Check your own progress using the online quizzes and choose whether or not you want to be assessed at the end of the course.

The course launches for the first time in April 2020 and for a limited period we're offering it at a discounted rate. Not sure it's for you? Check out our course comparison. Please note that ESMEonline-flexi is a completely online, self-directed course and you will not have access to tutor support during the course. If you're looking for a blended-approach with interactions with peers and an expert facilitator, our original ESMEonline course is the one for you.

Course Comparison

	ESMEonline	ESMEonline-flexi
Time-management	Support to manage your time via a series of six two-week long, participatory modules	Flexibility to manage your time – study whenever you like within a six-month period.
Course content	A rich set of resources, including both printed and audio-visual materials, as well as ongoing discussion with peers and facilitators.	The same resource pack available in the original ESME course but optimised for digital consumption in 'bite-sized' chunks.
Assignment	Complete a micro-assignment at the end of each module to be awarded the ESMEonline certificate in medical education.	Choose whether you would like to study the course without the assignment or complete an optional end-of course assignment to be awarded the ESMEonline certificate in medical education.
Feedback	An expert facilitator will give detailed feedback on your end-of-module assessments and peer feedback will be available via the discussion forums.	Get rapid feedback on your knowledge and understanding of the key concepts via in-course tests. Detailed feedback on your application of the concepts is available via the optional end-of course assessment.
Support	Dedicated admin support for the duration of the course to help resolve any technical difficulties.	Dedicated admin support for the duration of the course to help resolve any technical difficulties.

Course Dates and Fees

The course launches in April and can be completed over a 6 month period between April and September 2020.

- Standard Fee £350
- Fee for AMEE members £300
- Participants from countries less well resourced (see AMEE website for full details) £185
