AMEE Guides

AMEE Guides cover topical issues in medical and healthcare professions education and provide information, practical advice and support. They are designed for use by teachers individually to inform their practice and are also widely used in staff development programmes. In addition, AMEE Guides can provide a valuable resource to inform curriculum and course committees.

- Curriculum Planning
- Research in Medical Education
- Education Management
- Assessment
- Teaching and Learning
- Theories in Medical Education

A selection of AMEE Guides is available for sale at the AMEE Exhibition Stand.
